

Phase 4 FUSION Enhancement Highlights:

Home Page Gadgets and Features

- **New** – Recent Website Activity gadget and email notifications
 - **New** – Gadget on Home Page displays recent website activity
 - **New** – Agent notification email is automatically sent generated based on website activity such as contact adding a note, marking listing as a favorite, possibility or reject, new contact account, or saving a search.
 - **New** – Settings page allows individual users to configure email notifications

Search Criteria Screen Features

- **New** – Select all items in a pick list using the new (*Select All*) feature
- **New** – Locate an Address, Business or Listing by ML#.
- **New** – Locate Points of Interest on Map – displays up to 25 points per POI category
- **New** – Advanced Search Operators allow usage of AND/OR/NOT operators on pick list type fields

Search Results Screen Features

- **New** – Search Results Statistical Summary showing Highs, Lows and Averages
- **New** – Print Map Report from search results. Prints a map at the top of the page and a list of properties below.
- **New** – Export listings to CSV or Tab Delimited file.
- **New** – Right-click on results screen has Print Grid option
- **New** - Search results includes an option in the Filter bar to display only listings of a selected Status.

Search Details Screen Features

- **New** – Link to Report a Data Violation/Data Error to MLS Board defined email address allows members to email the board with concerns about a particular listing's data
- **New** – Right-click on Listing View gadget in details screen will display Print Report option
- **Change** – users can now Copy & Paste text from listing reports

Email Features

- **New** – Email templates – users can choose from a variety of premade messages that can be used to pre-populate the email message. Users can create new, copy and modify email templates.

Driving Directions Features

- Get directions, drive-times and distances for up to 16 locations (**Changed** – Increased from 10)

Saved Search Manager

- **New** - If Reverse Prospecting feature is enabled for a site, the Search Settings dialog includes an "Allow Reverse Prospecting" checkbox. Each agent may set the default state for this checkbox in their Auto-Notification Settings.

Listing Maintenance (Add/Edit)

- **New** – Upload multiple images for a single listing at once
- **Change** – Modify the Image Type and Remarks from the Thumbnail view
- **New** – Rotate Image, set Brightness and Contrast options in image editor
- **New** – Set map location of a property. Mapping options includes Address and Business Location and Point of Interest (POI) lookup, as well as optional map layers.
- **New** – Upload Attachments directly from computer
- **New** – In the listing summary screen in Add/Edit includes a Reverse Prospect tab with a list of agents who have active contacts for which this listing matches their search criteria. Each agent's phone number and email address are provided, as well as a Numeric ID of the search (to keep from exposing their Contact's name). This numeric ID is displayed on the Search Manager screen only if the Reverse Prospecting feature is enabled. [OPTIONAL FEATURE]

- **New** – Copy Listing, Copy Images, Copy Attachments function (all optional)
- **New** – Spelling checker on select fields

Hotsheet

- **New** – Locate on Map an Address, Business or Listing by ML#.
- **New** – Locate Points of Interest on Map – displays up to 25 points per POI category

Mapping Services

- **New** – Rotate Bird's Eye view to show location from N, S, E, W vantage points. (When Bird's Eye view displays, directional labels show around the map's panning tool, located in the upper left-hand corner.)

Reports

- **New** – Report Manager and Report Editor allows users to create and customize report view – ***Only Available for Internet Explorer Browser***

Settings

- **New** – Each user can set personal preferences for default property type, searches, grids and reports

Phase 4 also includes a heavy concentration on fixing known bugs for TEMPO and FUSION.
