

NOW AVAILABLE!

FUSION MLS™ – Another Option In Accessing Sandicor’s MLS Data!

- Fusion MLS™, the next generation of MLS software, is an **ALTERNATIVE** to TEMPO™ in accessing Sandicor’s MLS data. TEMPO™ will remain in place and agents will have the **CHOICE** of using either TEMPO™ or Fusion MLS™, or a combination of the two for their searches.
- Fusion MLS™ can be used on PC’s and Mac’s, as well as full browsers (not mobile browsers) capable of running Adobe Flash Player 10.1 or higher, such as Chrome, Firefox, and Safari.
- You can access Fusion MLS™ by going to www.sandicor.com and clicking on the **Fusion MLS™** button.
- Fusion MLS™ features are being rolled out in phases:

Fusion MLS™ Rollout

Search/Map Search
Printing/Emailing Reports
Contacts
Client Gateway
Realist Tax

Next Fusion MLS™ Phase (ETA Qtr 2, 2011)

CMA/Quick CMA
Hot Sheets
Add/Edit

- The Fusion MLS™ URL <http://www.fusionmls.sandicor.com> must be added to agents’ computer firewall and/or pop-up blocker list of trusted sites.
- Initially Add/Edit will continue to be done only in TEMPO™ and the data will be immediately available in Fusion MLS™ since they share the same database. In the next phase, Add/Edit will be able to be done in either TEMPO™ or Fusion MLS™ and will be immediately available in both systems.
